Concentrated study is so vital to the dancer's muscles, memory and maturity. The progress seen and felt in their body will boost their self confidence. The camp had made the difference in moving some students from the lower end of the class to the upper end of the class. Sometimes the camp makes the difference in changing a student who was losing interest in dance into one who loves it and wants to seriously continue with their dance as they get older. Attending camp is a very good way to perfect your skills and thereby increase your interest and enjoyment of dance.
